Summary

Motivated backend developer with a strong foundation in Java, Spring Boot, and RESTful API development. Skilled in building scalable, secure server-side applications and optimizing databases using Oracle and MySQL. Passionate about problem-solving and continuously learning emerging technologies.

Technical Skills

Programming Languages: Java, SQL, PL/SQL

Java EE: JDBC, Servlets, JSP

Spring Framework: Spring MVC, Spring Security, Spring Boot

ORM: Hibernate, JPA

API Technologies: REST API

Databases: Oracle, MySQL, H2 Database

Cloud / DevOps: AWS (EC2, S3), Git, GitHub, Maven

Tools: Eclipse, VS Code, Postman, Swagger

Experience

Java Mentor

Jun 2025 – Present

Naresh i Technologies, Hyderabad, India

- Conduct training sessions on Core Java, Advanced Java, Spring Boot, and backend technologies.
- Guide students in building real-time projects using Spring Boot and Microservices.
- Mentor on database design and query optimization using Oracle and MySQL.
- Assist learners with debugging, problem-solving, and interview preparation.

Education

Bachelor of Computer Applications (BCA)

2022 – 2024

Makhanlal Chaturvedi National University of Journalism and Communication, Bhopal

CGPA: 7.60

Projects

Bank Management System

Spring Boot, Spring MVC, Hibernate

- Developed secure customer/admin login with Spring Security and role-based access.
- Implemented core banking features: account creation, funds transfer, and transaction history.
- Applied Controller–Service–DAO architecture and Hibernate ORM for efficient DB operations.

Student Management System

Spring MVC, Hibernate/JPA

- Implemented CRUD operations for student records.
- Used Controller–Service–DAO layered architecture.
- Managed dependencies using Maven.
